OWN WORKSHOP

PLUGVAN WORKSHOP MODULE

THE PLUGVAN WORKSHOP MODULE

CONVERTED WITHIN 5 MINUTES

With the PlugVan modules, you can transform a panel van into a workshop vehicle in no time at all – and back again. The module is available in different versions, depending on your individual needs. With the workshop module, you remain flexible and can continue to use the vehicle for other purposes, e.g. as a van or as a camper. The workshop module can be combined with other PlugVan modules.

Simple conversion from empty panel van to workshop vehicle

Side extensions for optimum adaptation to vehicle width

Light and power supply (optional)

Large storage compartments to accommodate sorting boxes

Integrated chassies for easy loading and unloading by yourself

With table and / or motorcycle rack

Spacious aisle (approx. 60 cm)

Forklift loading possible

ADVANTAGES

- Quickly converted within 5 minutes
- Easy handling due to integrated chassis or
- Fits into 3,5t panel vans of almost every model
- Use your panel van for multiple purposes
- High quality materials
- Suitable for rental vehicles as no change to the van is necessary
- Easily adaptable to standard tool containers
- Equipment can be configured individually

FITS INTO 3.5 t PANEL VANS OF (ALMOST) EVERY MODEL

The PlugVan modules are completely separated from the base vehicle and compatible with almost any panel van (3.5 t) – regardless of brand:

Citroën Jumper / Fiat Ducato / Ford Transit / Hyundai H350 / Iveco Daily / MAN TGE / Mercedes Sprinter / Nissan NV 400 / Opel Movano / Peugeot Boxer / Renault Master / VW Crafter
